## PROJECT HOPE

**THROUGH** a cooperative effort, the University of Alabama and Shelton State can now provide their students, faculty, and staff with counseling and information on rape, sexual assault, and domestic violence through Project Hope.

Project Hope is a program initiated by the University's Women's Center and was made possible through a federal grant from the Violence Against Women Act, and a local grant from the Tuscaloosa Consortium of Higher Education. The grant provides funds for Robyn Trippany, a full time counselor, and Terri Boyer, program coordinator. They will be available to both University and Shelton students. They will be at the Shelton counseling center on Mondays from 8 a.m.-12 p.m. and on Thursdays from 1-6 p.m. A message may be left by calling 391-2964.

In addition to the counseling services, Project Hope also offers a speakers bureau, peer education groups, and a monthly newsletter entitled *Hope Happenings*.

## SHELTON HOLDS F I R S T V I S I O N I N G W O R K S H O P

Shelton held its "first ever" visioning workshop on February 16-17 to initiate an on-going process to build consensus among major stakeholders (inside and outside) on the future of the institution. The workshop title, *Looking Beyond the Horizon*, expresses the intent of the visioning process. Visioning is not a one-time event. Visioning is an evolutionary process that seeks to focus an organization on the challenges and possibilities of the future. Visioning is like riding a bicycle, if you don't keep moving forward

you fall over.

The visioning workshop was sponsored by Shelton's Quality Council and facilitated by the team leaders of the five Systems Improvement Teams. Team leaders were: Kim Inman-Smith, Team #1: Educational Programs and Services; Darrell Wright, Team #2: Information Technology and Communications; Richard Moton, Team #3: External Programs and Community Relations; Rosemary Blethen, Team #4: Administrative Systems and Services; and Bill Aldridge, Team #5: Institutional Resources.

Each visioning group is preparing a detailed report of the outcomes of the workshop. These reports will provide documentation of the visioning process for the institutional self-study and serve as a springboard for the visioning process. The goal of the visioning process is to shape a "community of mind" on the future direction of the college and helps the college move forward into the next century.
